Summary

Growth-focused engineer running Reddit-first GTM motions for early-stage SaaS — driving authentic product discovery, managing audience trust, and building content systems that convert. Technical fluency in APIs, automation, and full-stack development. Targeting GTM Engineering or Growth roles where product instinct and engineering depth work together.

Growth & GTM Experience

Runnable

Growth Affiliate Contributor (Performance-Based)

Remote
Mar 2026 – Present

- Execute a Reddit-first organic growth motion — crafting value-driven posts and comments across relevant tech communities that surface real product use-cases without triggering spam signals; maintain promotional mentions strictly below 20–25% of total content.
- Develop content around authentic product stories and user problems, communicating the design thinking behind Runnable's value proposition to drive organic discovery and word-of-mouth.
- Recognised as a **top-performing contributor** across the affiliate program for consistency, engagement quality, and ability to drive non-promotional awareness at scale.

Nexie

Founding Growth Affiliate (Performance-Based, Quality-First Program)

Remote
June 2026 – Present

- Among the **first affiliates onboarded** to Nexie's small, invite-only quality-first growth program, contributing to early-stage GTM distribution for a niche retention email marketing tool.
- Drive highly targeted Reddit outreach in communities focused on email marketing, retention, and lifecycle campaigns, where audience specificity requires sharper positioning and deeper product fluency than broad-market tools.
- Craft non-promotional posts centred on retention email workflows, communicating Nexie's value to practitioners already evaluating solutions within a high-intent niche.

B-Leaf Music Community (Discord)

Community Admin

Remote
Oct 2024 – Apr 2026

- Built and scaled a 200+ member fan community for independent musician B-Leaf, designing onboarding flows, role structures, moderation workflows, and community guidelines from the ground up.
- Planned and hosted recurring live events and sessions drawing 15–40 participants per session; coordinated directly with the artist on engagement initiatives and content drops.

Album Listening Party, Rasla & Bhadrakar

Event Operations & Partnerships Coordinator

Vadodara, Gujarat
May 2026

- Co-organized a 50+ attendee artist listening event within a 3-day planning window, managing venue operations, artist requirements, audience logistics, and partnerships end-to-end.
- Negotiated venue partnerships that brought total event costs to zero while maintaining favorable terms for all stakeholders.

Technical Experience

Horizontal Integration India Pvt Ltd

SDE / DX Intern

Vadodara, Gujarat
Jan 2026 – May 2026

- Built 25+ reusable React/TypeScript components using Atomic Design and JSON-driven rendering for an enterprise training portal, reducing UI duplication by ~30%.
- Implemented structured state handling and TypeScript-driven validation, reducing development turnaround time by ~20%.

Technical Projects

AddStack | *Python, FastAPI, PostgreSQL, SQLAlchemy, Alembic, JWT, Pydantic*

- Built a RESTful backend with 15+ API endpoints for user authentication, post management, voting, and content retrieval.
- Designed a normalised PostgreSQL schema with SQLAlchemy ORM and Alembic migrations; secured API operations with JWT authentication and Pydantic request validation.

Skills

Growth & GTM: Reddit Marketing, Community-Led Growth, Organic Product Distribution, Audience Engagement & Research, Affiliate Marketing, Subreddit Dynamics, Spam-Safe Content Strategy, Creator Relations, Event Operations
